## General Comment

The Radiological Emergency Preparedness staff at Wisconsin Emergency Management reviewed NuReg 0654 Supp. 3 and its supporting documents. Concurrence from state agency partners, county government and the utilities was sought and obtained before finalizing our submitted comments. While some minor issues were identified during the review, we chose to only comment on the issues that would have a greater impact on the REP program as a whole.

We'd like to thank you for the opportunity to comment on these changes and for the extra allotment of time that was given based on requests you received
