

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

May 24, 1995

Dr. Robert Charles Brown, President  
Arkansas Tech University  
Russellville, Arkansas 72801-2222

SUBJECT: ARKANSAS TECH UNIVERSITY RESEARCH REACTOR - WITHDRAWAL OF  
APPLICATION FOR CONSTRUCTION PERMIT (TAC NO. M79509)

Dear Dr. Brown:

By letter dated November 13, 1989, as supplemented, Arkansas Tech University (ATU) applied for a construction permit and facility operating license for a research reactor to be constructed on the ATU campus in Russellville, Arkansas. Subsequently, by letter dated April 10, 1995, you withdrew your request.

The Commission has filed the enclosed Notice of Withdrawal of Application for Construction Permit and Facility Operating License with the Office of the Federal Register for publication.

In your letter you committed to inform NRC concerning the disposition of reactor components in your possession when that decision is made. Please provide this information to NRC at least 30 days prior to the date of disposition. Please note that the reactor components cannot be assembled without issuance of a construction permit from the NRC. Also note that the reactor components cannot be exported without obtaining the proper license from the NRC.

If you have any questions concerning the withdrawal of your application or disposition of the reactor components in the possession of ATU, please call me at 301-415-1127.

Sincerely,

A handwritten signature in cursive script that reads "Alexander Adams Jr.".

Alexander Adams Jr., Senior Project Manager  
Non-Power Reactors and Decommissioning  
Project Directorate  
Division of Project Support  
Office of Nuclear Reactor Regulation
