Mr. Alexander Adams, Jr. Non-Power Reactor, Decommissioning, and Environmental Project Directorate U.S. Nuclear Regulatory Commission Washington, D.C. 20555

> Project Number 677. Application for a Construction Permit/Operating License for Arkansas Tech University TRIGA Reactor Facility

Dear Mr. Adams

This affidavit is to certify that on November 14, 1989, copies of the above referenced application were shipped to Governor Bill Clinton, County Judge Joe Phillips, and Mayor Vernon Howard in compliance with provisions of 10 CFR 2.101 (a) (3) (ii). Copies of the letters of transmittal are enclosed for your information.

Sincerely,

Jack Hamm

My Commission Expires:

#### ARKANSAS TECH UNIVERSITY . Office of the President

November 14, 1989

Governor Bill Clinton State Capitol Little Rock, AR 72201

> RE: Application for Construction Permit/Operating License for Arkansas Tech University TRIGA Reactor. United States Nuclear Regulatory Commission Project No. 677.

Dear Governor Clinton:

Arkansas Tech University is considering the construction of a Center for Energy and Environment Studies on the campus in Russellville. The center includes a TRIGA Reactor which is used for teaching and research purposes, and is typical of those found at approximately 40 universities nationwide. This facility uses only low-enriched uranium fuel and not the highly enriched fuel that has caused environmental concerns.

As part of our feasibility assessment, we have submitted an application to the Nuclear Regulatory Commission for their approval of our plan. The provisions of 10 CFR 2, 101 (a) (3) (ii) require that we deliver a copy of our application to the Governor, County Judge, and the Mayor. The application includes Technical Specifications, Emergency Plan, Safety Analysis Report and Environmental Report. A draft Environmental Impact Statement will be available from the Commission upon request at some future date.

Requests for additional information pertaining to our application to the NRC may be directed to Dr. Jack Hamm, Dean of the School of Systems Science, Arkansas Tech University, Russellville, AR 72801 (501) 968-0353.

Sincerely,

Kenneth Kerch
