RE: Change of RSO Officers for NRC Material License No. 13-26343-01

We had requested back on May 27, 2010 to have Kevin Day put on our NRC license as the new Radiation Safety Officer. At that time we did not have a copy of his certificate and we have since received his certificate. We are enclosing Mr. Day's certificate along with a letter from him stating he accepts the RSO position and he understands the duties and responsibilities.

We would also like to have Elliott Sturgeon as an "Alternate RSO" for the above listed license.

Besides the RSO change, there will be no change in our program. If there is any other information that might need please let us know. If there are further questions or problems please contact me at this office at 812-895-7425.

Sincerely,

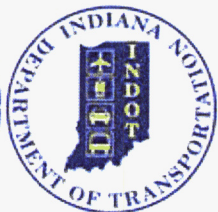

Andrew Carter  
District Testing Engineer
