Docket No. 52-039  
EIS 9.3 - Alternative Sites  
Application Section: ER Part 3

QUESTIONS for Environmental Projects Branch 3 (RAP3)

EIS 9.3-23

This RAI is related to the second alternative sites audit information need CR-3.

Provide information on known cultural resources within the proposed water pipeline corridors at the Alternative Sites (Montour, Humboldt, and Seedco) to determine potential impacts to the National Register of Historic Places (NRHP) listed, eligible, or potentially eligible cultural resources. Data on terrestrial archaeological sites and above ground historic architectural resources are available at the Pennsylvania State Historic Preservation Office (SHPO). The information should include those cultural resources that may be directly impacted through physical disturbance as well as those cultural resources that may be visually impacted by temporary or permanent above ground structures built as part of the water pipelines.

Full Text (Supporting Information)

The applicant has not provided information related to the potential impacts to known NRHP listed or eligible cultural resources resulting from placement of water pipelines for the Alternative sites (Montour, Humboldt, and Seedco). This information is necessary to adequately compare the impacts to cultural resources at and evaluate the suitability of these Alternative Sites.

EIS 9.3-24

This RAI is related to the second alternative sites audit information need CR-4.

Provide information on known cultural resources within the proposed transmission line corridors at the Alternative Sites (Montour, Humboldt, and Seedco) to determine potential impacts to NRHP listed, eligible, or potentially eligible cultural resources. Data on terrestrial archaeological sites and above ground historic architectural resources are available at the PA-SHPO. The information should include those cultural resources that may be directly impacted through physical disturbance as well as those cultural resources that may be visually impacted by temporary or permanent above ground structures built in support of the transmission lines.

Full Text (Supporting Information)

The applicant has not provided information related to the potential impacts to known NRHP listed or eligible cultural resources resulting from placement of transmission lines for the Alternative Sites (Montour, Humboldt, and Seedco). This information is necessary to adequately compare the impacts to cultural resources at and evaluate the suitability of these Alternative Sites.
