## Attachment B – Program Description

### PROGRAM DESCRIPTION

Tennessee State University, through a Department of Energy Grant (DE-FG02-94EW11428), maintains responsibility for the production of the Minority Serving Institutions Technical Assistance and Capacity Conference. The goal and mission of the conference are to inform the Minority Serving Institutions (MSI) community about partnerships, compliance/regulatory requirements, broadband programs, and funding opportunities with Federal agencies. The intent is to enhance the relationship between MSI and the government. The conference will provide the MSI representatives from the institutions with an opportunity to interact with program officers and other staff members from the U.S. Department of Commerce, U.S. Department of Energy, U.S. Department of Environmental Protection Agency, U.S. Nuclear Regulatory Commission, the National Science Foundation, U.S. Agency for International Development, and other federal agencies. In addition, the interactive workshop/conference will provide MSIs with an opportunity to interact with the federal agencies and learn how the institutions can expand their participation in federally funded programs and gain knowledge of the government critical skills requirement.

This conference will help the Federal agencies in satisfying their long term and short term goals. In general, the Minority Serving Institutions (MSI) Program administers a myriad of Departmental initiatives to support partnerships with institutions of higher learning pursuant to the following Executive Orders: Executive Order (E.O.) 13256, February 2002, (President's Board of Advisors on Historically Black Colleges and Universities); E.O. 13230, October 2001, (President's Advisory Commission on Educational Excellence for Hispanic Americans); E.O. 13270, July 2003, (Tribal Colleges and Universities); and E.O.J3096, April 2004, (American Indian and Alaska Native Education). These initiatives help strengthen institutional infrastructure so MSIs are competitive in terms of the quality of their academic programs and access to federal funding.

The conference is being co-sponsored by the U.S. Department of Commerce, U. S. Department of Energy, U. S. Department of Environmental Protection Agency, U.S. Nuclear Regulatory Commission, the National Science Foundation, and U.S. Agency for International Development. The total fund to be allocated between the six agencies for the conference/workshop is approximately \$150,000. The agencies will contribute the following each year:

• U.S. Nuclear Regulatory Commission	\$30,000
• U.S. Department of Commerce	\$30,000
• U.S. Department of Energy	\$40,000
• National Science Foundation	\$30,000
• U.S. Environmental Protection Agency	\$15,000
• U.S. Agency for International Development	\$5,000 (plus in-kind services)
	\$150,000 (TOTAL)

The funds will be used to support costs associated with the hotel, transportation, attendee participation, meeting space, audio visual equipment, conference program, conference meals, and other costs directly associated with the production of the

conference.

Certifications and representations. These terms incorporate the certifications and representations required by statute, executive order, or regulation that were submitted with the SF424B application through Cooperative Agreements.gov.

#### **I. Mandatory General Requirements**

The order of these requirements does not make one requirement more important than any other requirement.

#### **1. Applicability of 2 CFR Part 215**

a. All provisions of 2 CFR Part 215 and all Standard Provisions attached to this Cooperative Agreement/cooperative agreement are applicable to the Cooperative Agreement and to sub-recipients which meet the definition of "Cooperative Agreement" in Part 215, unless a section specifically excludes a sub-recipient from coverage. The Cooperative Agreement and any sub-recipients must, in addition to the assurances made as part of the application, comply and require each of its sub-awardees employed in the completion of the project to comply with Subpart C of 2 CFR 215 Part 180 and include this term in lower-tier (subaward) covered transactions.

b. Recipient must comply with monitoring procedures and audit requirements in accordance with OMB Circular A-133. <  
[http://www.whitehouse.gov/omb/circulars/a133\\_compliance/08/08toc.aspx](http://www.whitehouse.gov/omb/circulars/a133_compliance/08/08toc.aspx) >

## **2. Award Package**

### **§ 215.41 Recipient's responsibilities.**

The Recipient is obligated to conduct such project oversight as may be appropriate, to manage the funds with prudence, and to comply with the provisions outlined in 2 CFR 215.41. Within this framework, the Principal Investigator (PI) named on the award face page, Block 11, is responsible for the scientific or technical direction of the project and for preparation of the project performance reports. This award is funded on a cost reimbursement basis not to exceed the amount awarded as indicated on the face page, Block 16., and is subject to a refund of unexpended funds to NRC.

The standards contained in this section do not relieve the Recipient of the contractual responsibilities arising under its contract(s). The Recipient is the responsible authority, without recourse to the NRC, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in support of an award or other agreement. This includes disputes, claims, protests of award, source evaluation or other matters of a contractual nature. Matters concerning violation of statute are to be referred to such Federal, State or local authority as may have proper jurisdiction.

### **Sub Agreements**

#### **Appendix A to Part 215—Contract Provisions**

However, Title VII, 42 USC § 2000e-1(a), expressly exempts from the prohibition against discrimination on the basis of religion, a religious corporation, association, educational institution, or society with respect to the employment of individuals of a particular religion to perform work connected with the carrying on by such corporation, association, educational institution, or society of its activities.

### **Substantial Involvement**

### **American-Made Equipment And Products**

Recipients are hereby notified that they are encouraged, to the greatest extent practicable, to purchase American-made equipment and products with funding provided under this award.

### **Increasing Seat Belt Use in the United States**

Pursuant to EO 13043, Recipient should encourage employees and contractors to enforce on-the-job seat belt policies and programs when operating company-owned, rented or personally-owned vehicle.

### **Federal Employee Expenses**

Federal agencies are generally barred from accepting funds from a Recipient to pay transportation, travel, or other expenses for any Federal employee unless specifically approved in the terms of the award. Use of award funds (Federal or non-Federal) or the Recipient's provision of in-kind goods or services, for the purposes of transportation, travel, or any other expenses for any Federal employee may raise appropriation augmentation issues. In addition, NRC policy prohibits the acceptance of gifts, including travel payments for Federal employees, from Recipient or applicants regardless of the source.

### **Minority Serving Institutions (MSIs) Initiative**

Pursuant to EOs 13256, 13230, and 13270, NRC is strongly committed to broadening the participation of MSIs in its financial assistance program. NRC's goals include achieving full participation of MSIs in order to advance the development of human potential, strengthen the Nation's capacity to provide high-quality education, and increase opportunities for MSIs to participate in and benefit from Federal financial assistance programs. NRC encourages all applicants and Recipients to include meaningful participations of MSIs. Institutions eligible to be considered MSIs are listed on the Department of Education website:

### **Research Misconduct**

Scientific or research misconduct refers to the fabrication, falsification, or plagiarism in proposing, performing, or reviewing research, or in reporting research results. It does not include honest errors or differences of opinions. The Cooperative Agreement organization has the primary responsibility to investigate allegations and provide reports to the Federal Government. Funds expended on an activity that is determined to be invalid or unreliable because of scientific misconduct may result in a disallowance of costs for which the institution may be liable for repayment to the awarding agency. The Office of Science and Technology Policy at the White House published in the Federal Register on December 6, 2000, a final policy that addressed research misconduct. The policy was developed by the National Science and Technology Council (65 FR 76260). The NRC requires that any allegation be submitted to the Cooperative Agreements Officer, who will also notify the OIG of such allegation. Generally, the Cooperative Agreement organization shall investigate the allegation and submit its findings to the Cooperative Agreements Officer. The NRC may accept the Recipient's findings or proceed with its own investigation. The Cooperative Agreements Officer shall inform the Cooperative Agreement of the NRC's final determination.

### **Publications, Videos, and Acknowledgment of Sponsorship**

Publication of the results or findings of a research project in appropriate professional journals and production of video or other media is encouraged as an important method of recording and reporting scientific information. It is also a constructive means to expand access to federally funded research. The Cooperative Agreement is required to submit a copy to the NRC and when releasing information related to a funded project include a statement that the project or effort undertaken was or is sponsored by the NRC. The Cooperative Agreement is also responsible for assuring that every publication of material (including Internet sites and videos) based on or developed under an award, except scientific articles or papers appearing in scientific, technical or professional journals, contains the following disclaimer:

"This [report/video] was prepared by [Cooperative Agreement name] under award [number] from [name of operating unit], Nuclear Regulatory Commission. The statements, findings, conclusions, and recommendations are those of the author(s) and do not necessarily reflect the view of the [name of operating unit] or the US Nuclear Regulatory Commission."
