Mr. Robin DeLaBarre
Office of Nuclear Energy,
Safety & Security Affairs, Room 3320 HST
Bureau of International Security
& Nonproliferation
U.S. Department of State
2201 C Street, NW
Washington, D.C. 20520

Dear Mr. DeLaBarre:

Enclosed is an application (XSNM3659) recently received by the U.S. Nuclear Regulatory Commission (NRC), dated August 23, 2010, from Mitsui & Co. (U.S.A.), Inc., for the export of low-enriched uranium to Japan for use as reload fuel in the Fukushima II (Units 3 and 4) and Kashiwazaki-Kariwa (Units 1-7) nuclear power reactors.

Assurances from Japan that the material will be subject to all of the terms and conditions of an agreement for cooperation are required. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that the material is of Canadian, Chinese, Kazakhstani, Nigerien, and Russian origin; converted in Canada, France, Russia, and the U.S.; enriched in France, the Netherlands, Russia, the U.K. and the U.S.; and re-converted in the U.S. It, thus, has Canadian and EURATOM obligations.

Sincerely,

/RA/

Janice E. Owens, Branch Chief
Export Controls and International Organizations
Office of International Programs
