Subject: Save lake Granbury
Attachments: image001.jpg

I have lived on Lake Granbury for twelve years and am also a realtor specializing in waterfront properties. My husband and I chose Granbury for our future retirement home and have invested a large portion of our retirement savings in our home on the lake.

After researching all the data available on the Comanche Nuclear Plant expansion, I believe that additional selling of water from Lake Granbury, by the BRA to support Comanche Peak Expansion 3 and 4, will cause detrimental effects to our lake and significantly reduce the water levels. Not only will existing water front owner's property values be negatively affected, Lake Granbury will no longer be the lake of choice for individuals who desire to live on a lake. This community is built around the lake and low water levels not only affects water recreation but there could be dire economic consequences for the real estate market.

This community has always supported the Comanche Peak Nuclear Plant but this time the BRA has made a decision that will be too costly for Lake Granbury and the community.

Thank you for your support of our lake and community.

Best Regards,

Sue Thompson
