PBX (PRIVATE BRANCH EXCHANGE) MAINTENANCE

Objective

The objective of this contract is to obtain PBX system maintenance 24 hours per day, 7 days per week, and 365 days per year for the NRC Region III office located in Lisle, IL.

Scope

The Contractor shall provide and perform telecommunications system maintenance and associated support as required within the Statement of Work (SOW). The contractor support required includes maintaining an Avaya S8700 system with Communication Manager 5.1, including, but not limited to:

- Modular Messaging System
- Integrated Fault Performance software
- Voice Gate Server with Emergency Response Dialing and blast/broadcast dial
- Emergency Announcement System
- G650 Media Gateways
- Linux Operating System
- Digital, Analog, VoIP Telephone Equipment
- PRI Trunking
- Adtran Switches

In addition to providing maintenance for the Avaya system, the selected vendor must be certified to support transition from the following systems: Fujitsu 9600 PBX, Microcall Cost Accounting, Octel 250 Voice Mail System

TECHNICAL REQUIREMENTS

The Contractor shall provide PBX maintenance services, including emergency and routine service, to the Avaya phone system of the Region III office location at 2443 Warrenville Road, Lisle, Illinois. These services shall: support voice, data, and video connectivity at various speeds; interface with the Avaya G650.

The Contractor shall provide 24-hour emergency maintenance service for equipment and to support connectivity, 7 days a week, 365 days a year. Emergency maintenance will be requested by verbal and/or written request from the NRC Project Officer (PO), Technical Monitor (TM), or Contracting Officer (CO). The Contractor shall provide, at no charge, for all contractor-furnished services and equipment, trouble and/or fault isolation and diagnostic testing in accordance with industry standards and shall initiate corrective action after notifying the PO.

The Contractor may be required to coordinate with other NRC service providers in conjunction with the NRC TM in order to correct problems and restore communications.

The Contractor shall not make modifications, alterations, or changes to any existing NRC telecommunications configuration unless authorized in writing by the NRC PO, TM, or CO.

The Contractor shall not disable, bypass or otherwise render inoperative, any safety device within the NRC telecommunications configuration.

NRC-30-08-539 M002

The Contractor shall report to the NRC PO or TM any situation that could cause system failure or the degradation of telecommunications services and recommend possible corrective action.

Time of Performance

Contractor is to be available 24 hours a day, 7 days a week, 365 days a year. For major outages, response time is within 30 minutes by telephone and on-site within 1 hour. For non-emergencies, response time is within 1 hour by telephone, and on-site within 2 hours, if required, between 8:00 am – 4:00 pm. Contractor should be located within approximately a 10-mile radius from the Region III office and be able to demonstrate the ability to provide timely support and response to service calls.

Period of Performance

Base Period: 8/16/2010 – 1/31/2011
Option Period 1: 2/1/2011 – 8/15/2011

Pricing Information

The fixed price should include remote and on-site support, parts and labor, system administration as requested, annual administrator training, and quarterly user training.
