**Subject:** Notice of Intent to prepare a SEIS for the proposed Powertech, Inc Uranium In Situ Recovery facility in Fall River and Custer Counties SD

Dear Interested Parties:

As a result of a Source Material License application submitted by Powertech USA Inc. to construct and operate a uranium in situ recovery facility in Fall River and Custer Counties, South Dakota, the US Nuclear Regulatory Commission has issued a Notice of Intent in the Federal Register (75 FR 3261) to prepare a site-specific Supplemental Environmental Impact Statement (SEIS). The SEIS will tier off of the Generic Environmental Impact Statement for In-Situ Leach Uranium Milling Facilities (ISR GEIS) that was published in 2009. As outlined in 36 CFR 800.8, "Coordination with the National Environmental Policy Act," the NRC plans to use the environmental review process set forth in its 10 CFR Part 51 regulations to coordinate compliance with Section 106 of the National Historic Preservation Act. This Notice can be viewed in the NRC's Agencywide Documents Access and Management System (ADAMS) under ADAMS accession number ML092870160.

Please contact me if you have any questions.

Sincerely,

Haimanot Yilma
