Art,

FYI, read the below message. In follow up to what I mentioned this morning in Principal Staff, this is a heads up that a yellow announcement will follow asking staff to preserve documents related to Kerr McGee, Cimarron, and Tronox.

Thanks

Karla

From what I have been able to piece together, these are NRC HQ licenses. Kerr MaGee spun off Tronox and Cimmaron with a parent of Tronox. Both licenses appear to be in the decommissioning process and there is concern that there are insufficient funds in the DFP to cover remediation costs. People in HQ probably have a better handle on what is happening with these licensees. SNM-1999/07003073 and SNM-928/07000925

Ken: Karla has forwarded to me a notice of August 12, 2009, deadline for filing proof of claim in the Tronox/Cimarron bankruptcy proceeding. She has informed me that she is faxing you a copy as well. Please let me know if you, or anyone on the bankruptcy review team, believes we need to file anything.

This e-mail is also to advise the rest of the team that we have also received notice of a litigation hold on all documents and e-mails related to Tronox, Cimarron, Kerr-McGee or any other debtors in the proceeding. A yellow agency-wide announcement is being prepared.
