(ML101950208)

In the referenced letter Duke Energy submitted responses to the Nuclear Regulatory Commission's requests for additional information (RAIs). The submittal included responses to 23 RAIs. Subsequent to the submittal it was determined that a figure was inadvertently omitted from the response to RAI 192. The figure depicts the proposed river water intake structure for Lee Nuclear Station and its approximate location relative to existing wetlands. The figure is referenced in the RAI response as Attachment 192-01 and is included as Enclosure 1 to this letter.

If you have any questions or need any additional information, please contact Peter S. Hastings, Nuclear Plant Development Licensing Manager, at 980-373-7820.
