Boyce Grier, Director  
Office of Inspection and Enforcement  
Region 1  
U. S. Nuclear Regulatory Commission  
631 Park Avenue  
King of Prussia, Pennsylvania 19406

Dear Mr. Grier:

Environmental monitoring for Indian Point 3 Nuclear Power Plant is performed under contract by Consolidated Edison. The Environmental Technical Specifications (ETS), Section 5.3.2.E require proposed procedures which pertain to the ETS be reviewed by the Plant Operating Review Committee (PORC).

On August 10, 1978, the procedures listed below were received from Consolidated Edison for PORC review. The procedures were reviewed by PORC and approved on August 16, 1978. It was noted, however, that the procedures were implemented prior to PORC review.

To prevent recurrence of this matter, a letter has been sent to Consolidated Edison advising them that we expect future procedures requiring PORC approval to be transmitted to us in a more timely manner.

Very truly yours,

A handwritten signature in black ink, appearing to read "S. H. Cantone".

S. H. Cantone  
Acting Resident Manager

JWK/rbb

Attachment: List of Procedures

<u>Procedure No.</u>	<u>Title</u>	<u>Revision</u>
1PC-I-001	Calibration and Operation of the Hach Turbidimeter, Model 2100A	0
1PC-S-029	Adding Hydrazine and/or Cyclohexylamine via the Discharge of the Auxiliary Boiler Feed Pumps	0
1PC-S-030	Boric Acid Addition Tanks	0
1PC-S-031	Boric Acid Feed System	0
1PC-I-032	Temperature Recorder (Partlow) Calibration	2
1PC-S-034	Chemical Discharges Units 1, 2 & 3	2
1PC-A-051	Fossil Fuel Analysis	0
1PC-A-276	Turbidity of River Water, Hach Turbidimeter	0
