OFFICIAL AGENCY RECORD

**MEETING SUMMARY:
PUBLIC MEETING REGARDING THE LICENSING PROCESS
AND DRAFT ENVIRONMENTAL IMPACT STATEMENT
FOR THE PROPOSED AREVA EAGLE ROCK ENRICHMENT FACILITY
AUGUST 12, 2010**

On August 12, 2010, the U.S. Nuclear Regulatory Commission (NRC) staff conducted a public meeting in Idaho Falls, Idaho, regarding the licensing process and Draft Environmental Impact Statement (Draft EIS, NUREG-1945) for the proposed AREVA Enrichment Services LLC Eagle Rock Enrichment Facility (EREF) in Bonneville County, Idaho. In addition, in separate meetings on August 11, 2010, the NRC staff met with The Shoshone-Bannock Tribes Business Council in Fort Hall, Idaho, the Mayor of the City of Idaho Falls, and a Bonneville County Commissioner in Idaho Falls, to discuss the status of the licensing and environmental review processes and the contents of the Draft EIS.

The public meeting was held at the Red Lion Hotel on the Falls Convention Center. The NRC staff's primary purpose for conducting this public meeting was to gather comments on the Draft EIS. The meeting proceedings were transcribed by a court reporter. Attendees included Congressional staff, State and local government officials or their representatives, members of citizens' groups, and members of the general public. The list of registered attendees is attached.

The NRC staff gave a slide presentation that provided an overview of the NRC's roles and responsibilities and of the licensing and environmental review processes; summarized the contents of, and presented the preliminary findings and conclusions from, the Draft EIS; identified information sources for the project and how they could be accessed; and provided information on how written comments could be provided during the public comment period ending on September 13, 2010. The NRC's slide presentation can be found in the NRC's *Agencywide Documents Access and Management System* (ADAMS) at <http://www.nrc.gov/reading-rm/adams.html> (ADAMS Accession Number ML102240200). It can also be found in the NRC's public website for the licensing of the proposed EREF project at <http://www.nrc.gov/materials/fuel-cycle-fac/arevanc.html#3>.

Following the NRC presentation, comments were presented verbally by several elected officials or their representatives and members of citizens groups and of the general public. The elected officials and representatives provided statements and remarks regarding the proposed EREF project and the Draft EIS. In addition, stakeholders provided comments on the contents of the Draft EIS in many of the resource areas addressed in the document (e.g., land use, historical and cultural resources, water resources, ecological resources, transportation, public health, waste management, and socioeconomics). Other comments focused on the NRC staff's preliminary findings, conclusions and recommendations in the Draft EIS. Comments were also presented regarding support of, or opposition to, the proposed EREF project.

The transcript of the public meeting can be found in ADAMS at <http://www.nrc.gov/reading-rm/adams.html> (ADAMS Accession Number ML102320123), and also in the NRC's public website for the licensing of the proposed EREF project at <http://www.nrc.gov/materials/fuel-cycle-fac/arevanc.html#3>.
