SEP 05 2010

Mark W. Cimmerer, M.D.
Radiation Safety Officer
Hayes Green Beach Memorial Hospital
321 East Harris Street
Charlotte, MI 48813

Dear Dr. Cimmerer:

Enclosed is Amendment No. 13 to your NRC Material License No. 21-26050-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note that, at this time, we updated and reformatted Subitem No. 6.B. in your license to delete the exclusion of xenon-133 from your authorization of materials in 10 CFR 35.200. As a result of the revision of 10 CFR Part 35 in its entirety in 2002, NRC decided to discontinue such exclusions from the licenses it administers. There should be no effect on your licensed program as a result of this formatting change

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you.

This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

M. Cimmerer

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in cursive script that reads "Michael G. Herr". The signature is written in black ink and is positioned above the typed name.

Michael G. Herr, CHP
Materials Licensing Branch

License No. 21-26050-01
