SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Mr. Corella:

In letters dated March 13, 2010 and July 20, 2010, and NRC Forms 314 dated March 14, 2010 (with attachments) and July 12, 2010 (with attachments), you indicated that you wished to release the location at 8755 Agnes Avenue, Brentwood, Missouri for unrestricted use.

You also indicated that all activities authorized by license number 24-32656-01 have ceased and that radioactive materials possessed under this license have been transferred to Qal-Tek Associates, NRC license number 11-27610-01.

The NRC staff has reviewed your final status surveys. Based on its review, the staff has concluded that all licensable radioactive material has been removed from your former location of use and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required for this location and it is suitable for unrestricted use.

Based on these conditions, your NRC license number 24-32656-01 is hereby terminated via amendment.

N. Corella

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
