Desc: This is a Freedom of Information Act request for the following materials:

All documents pertaining to the Atomic Energy Commission's program investigating unidentified flying objects(UFOs). I am also requesting documents and related materials concerning James T. Ramey and his involvement in any AEC organization investigating unidentified flying objects(UFOs) as referenced in this Washington Post obituary for James T Ramey:

"According to his grandson Dr. James T. Ramey II, Mr. Ramey was part of a long-running, top-secret AEC program that investigated public claims involving extraterrestrial spacecraft landing on Earth.

Mr. Ramey said the reason that the AEC followed up on these claims -- as far-fetched as they may have been -- was because the Americans feared that if such advanced technology on Earth did exist and was discovered by the Russians, it could be adapted as an advantage in the nuclear arms race.

Mr. Ramey was happy to report to his grandson, however, that while his team investigated many claims involving UFOs and extraterrestrial visitors, they found none of the evidence to be remotely credible."
