Callers: Katie Streit, Health Physicist *Katie Streit 9/7/10*
NRC Region III, Division of Nuclear Materials Safety
Materials Control, ISFSI, and Decommissioning Branch

Date of Call: September 2, 2010

SUBJECT: DISCUSSION OF LICENSE AMENDMENT REQUESTING THE RELEASE OF A BUILDING FOR UNRESTRICTED USE DATED JULY 27, 2010(Mail Control #: 573275)

On the above date, the Nuclear Regulatory Commission (NRC) Region III staff contacted the licensee to discuss the license amendment request dated July 27, 2010 to release the Environmental Management Facility for unrestricted use (ML102100586). The NRC informed the licensee that the license amendment could not be approved until the incinerator was removed and final status survey results for the area around the incinerator had been completed. The licensee committed to providing survey results of the incinerator area once it had been removed.

During the conversation, the NRC requested additional information for review to grant the release. Below is the requested information.

- 1) Appendix D provides sample data indicating presence of Co-57, Zr-95, Eu-152, and Eu-154 in storm drain sludge. Provide a description of the location of the storm drain and its relationship to the incinerator. Additionally, provide a description of any hold-up tanks or systems between the storm drain and sewer discharge point.
- 2) Provide the background, and a description on how it was determined, for survey results provided in net counts.

End of conversation record.
