[CASE PETITON TO INTERVENE TURKEY POINT 6 AND 7.pdf](#)

--- On **Tue, 8/17/10**, **Mary Olson** <maryo@nirs.org> wrote:

Dear Secretary – I am writing to inform you that a good faith effort to file a Petition to Intervene via the EIE has failed. Barry White, representing Citizens Allied for Safe Energy (CASE) in South Florida has been filing pieces of his petition all day (you have them). Unfortunately when it came time to file the actual petition – attached here – the EIE system is down from his computer in So Florida, my computer (I am supporting his effort) here in NC and also my colleague's computer in Washington DC. We draw the reasonable conclusion the EIE is "down" tonight.

THEREFORE I have advised Mr. White that the best thing to do is to email the materials to you. Perhaps someone would be so kind as to contact Barry at the first opportunity to discuss how to remedy this situation. Nuclear Information and Resource Service salutes CASE in its action and can attest to the fact that this work has been ongoing since the federal register notice of the opportunity for Hearing was published, and can attest to the good effort made this evening to meet the deadline using EIE. We attest further that the deadline has been met.

Mary Olson
