Subject: ADDITIONAL WATER DRAW FROM LAKE GRANBURY FOR COMANCHE PEAK POWER PLANT EXPANSION

Dear NRC,

I am a resident of Granbury, Texas and live on the Lake and have since 1997. I am very much OPPOSED to drawing any more water from our lake for the proposed additional two reactors at Comanche Peak. We already provide our fair share!! Additional water draw will negatively effect current lakefront property owners in that the water will be too low to have a boat dock and/or launch our boats from existant docks.

Additionally, decreased lake levels will negatively effect future growth of the Granbury area where the lake is a major attraction. The water for cooling the additional reactors should come from elsewhere!

Sincerely,

Carmond C. Fitzgerald
