Alice,

Yes, ML101450425 is the post-Numark version of Calvert P1 Section 2.5.1.

Let me know if I can assist with anything.

Jim

I am ready to bring the summary section of 2.5.1 into my Tech eval section for a branch review before I submit to you. We had a meeting a while back where we sat together with the Numark editor (forgot her name). So I want to find the latest Numark version of my SER. Can I assume that the ML number below will get me there? Thanks.

My bad in not informing you sooner of availability of 2.5.1 and 2.5.3 from Numark. They both can be found in ADAMS:

2.5.1 – Geologic and Seismic Information: ML101450425
2.5.3 – Surface Faulting: ML101470981

Apologies for the delay,

Jim

Alice: You are now profiled as Author for Section 2.5.1. You should be able to checkout/checkin ML101450425 in ADAMS. Contact me if there are any problems.

Alice and Sarah: Sections 2.5.2 and 2.5.3 will be sent from Numark to NRC later today. I will inform you of their availability. In ADAMS I will have Sarah profiled as Author on 2.5.2 and Alice will be Author on 2.5.3. Let me know if this matches your needs.

Thanks,

Jim
