Subject: opposition to Comanche Peak 3 and4

Sirs:
As a lakefront homeowner at Lake Granbury, I am adamantly opposed to the construction of two additional reactors at Comanche Peak. The water levels of Lake Granbury vary enough due to factors of nature and man, so the addition of new nuclear reactors would obviously decrease the water levels significantly. My boathouse would definitely be quite dry and that result defeats the whole purpose of building the facility, not to mention the cost of the project ($36000).
Although I will not be at the hearing on September 21st, please consider this email to be proof positive of my opposition to this potential project.
Jim Hanna
