Perfect –

A few more logistics -

1) I would like to schedule a **tentative, detailed debrief** for **September 16 at 10 or 11 a.m**. (this will likely replace the morning routine discussions described below). This would support an **exit or site debrief at 4:30 p.m**. on that same day.

2) I prefer to debrief my team around 3 or 3:30 and inform the LR project team that evening or the next morning at 8 or 8:30 am.

3) I expect to debrief a detailed status on Thursday August 19 at say 4:30 p.m.

4) What is the number to the response team room _____ and the NRC inspection team room _____

Thanks,

When is our entrance meeting?

Lou Carson is only available the first week. He is doing buried piping. He will want to walk down the systems included in this AMP. Also, he is evaluating the connection between LR buried piping and the NEI 07-07 ground water initiative (which includes buried piping). Other systems of interest, if not included in the LR AMP, are liquid radwaste.

He will want to walk down systems on Monday.

If you have any questions, please call me or Lou at 817 860-8221.

Have a great day!

Subject: Information for unescorted access for DCPP

Greg,

Below is the information that is needed to get your team into the system for the inspections. Please respond to Cindy Kaminski, who I have copied on this email, with the information requested. Please also provide a list of the members of your inspection team so that Cindy can make sure we have the information for all of the individuals.

Full Name
Date of Birth
Social Security Number
US Citizen: Yes or No
Sex
If contractor for NRC - name of company

Attached are the read and signs they will need to complete (just last page) and return to Cindy so that she can enter them into PIMS.
