Subject: Re:

Hi Lou,

I would consider responses to request numbers 6, 7, 18, 80, 81, and 82 acceptable.

Relative to request 9, I am not certain there has been a response to follow ups related to identifying the cause of the larger than anticipated losses of prestressing force experienced by several hoop tendons.

Relative to request number 12: I don't have access to the L drive, but has the follow up request been addressed?

Relative to request numbers 64, 79, and 83 it appears no information has been provided to date.

Dan

Attached is the latest data base for all NRC questions, including the 52 that are still open. 11 open questions are assigned to you. They include some recent re-assignments plus 3 that you share responsibility with George. Please follow up and work these questions to closure. Let me know if you have any questions or need any help.
