9/28/10

I am in support of the Licensing Application for the two new reactors at Comanche Peak.

I have lived and owned business's by the largest Nuclear plant in the United States Palo Verde, and I can state from experience that there was no Environmental Impact at all from this plants operation.

I now live and own a business by Comanche Peak, and the amount of water that is going to be drawn by the plant will be of minimal Impact on Lake Granbury's water table. Palo Verde drew very little from it's supply source, and that plant was much larger. I do not find this a concern of any magnitude.

Thanking you in advance
