**To:** LevyColeis Resource
**Subject:** Clean re-newable energy. Please.

All I ask for is that my tax dollars stop killing and maiming people...innocent or not. Please invest in clean energy. Of course the sun is atomic energy. That is why we are so very far away from it. Put a nuclear reactor billions of miles away from us in space? That is not an investment. That is insanity. Nature is sustainable inherently. We are creative beyond the bounds of sustainability...inherently. Invest in and use sustainable energy.
