October 7, 2010

Ms. Elizabeth Lohah Homer
1730 Rhode Island Avenue, NW
Suite 105
Washington, DC 20036

Dear Ms. Homer,

Thank you for participating in the Nuclear Regulatory Commission's (NRC's) program, "Tribal Participation in NRC's Regulatory Process – NRC Tribal Protocol," on September 27, 2010. Your presentation contributed to a successful program that was well-received by NRC staff and management.

The NRC's mission to license and regulate the Nation's civilian use of byproduct, source and special nuclear materials in order to protect public health and safety, promote the common defense and security, and protect the environment extends to the protection of Native American and Alaska Native people and their lands. The Commission recognizes Tribal rights to self-government and sovereignty and is committed to working with Native American Governments on a government-to-government basis.

The Tribal Protocol program on September 27th highlighted the Commission's commitment to outreach and communication with Native American Tribes, and provided information regarding policy, law, and culture. Your remarks regarding Tribal Sovereignty and the Federal Government's relationship with Tribes, along with personal insights and experience, provided valuable information to NRC staff.

I would like to express my sincere appreciation for your participation. Additionally, please find enclosed a Certificate of Appreciation from Michael Weber, NRC Deputy Executive Director for Materials, Waste, Research, State, Tribal, and Compliance Programs, recognizing the contributions you made to the afternoon.

Sincerely,

/RA/

Josephine M. Piccone, Director
Division of Intergovernmental Liaison
and Rulemaking
Office of Federal and State Materials
and Environmental Management Programs
