PURPOSE: The purpose of this meeting is to familiarize the NRC staff with the proposed Ross in situ recovery (ISR) site and to review the application prior to submission to identify any major acceptance or technical review issues.

CATEGORY: This meeting is a Category 1 Public Meeting. The public is invited to observe the meeting and may ask questions at the end of the business portion of the meeting. The NRC's Policy Statement, "Enhancing Public Participation in NRC Meetings," effective May 28, 2002, applies to this meeting. The policy statement may be found on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/commission/policy/67fr36920.html> and contains information regarding visitors and security.

Members of the public may attend the site tour and observe the application review. However, members of the public will not be allowed to view the application itself, as it is a pre-submission document. The application will also not become part of the meeting summary, since the application will not be distributed to meeting attendees or removed from the premises by meeting attendees.

Space at the field office is very limited; therefore, attendance will be on a first come-first serve basis. Please inform the meeting contact of your intention to attend by October 18, 2010, by either telephone or email.
