Dear Mr. Partlan:

Enclosed is Amendment No. 35 renewing your NRC Material License No. 13-16286-01 in accordance with your request dated April 23, 2010.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please be advised that prior to performing positron emission tomography (PET) imaging, you will need to amend your NRC license to include shielding information of your facility and provide a copy of your shielding calculations that shows compliance 10 CFR Part 20, Radiation levels in unrestricted areas.

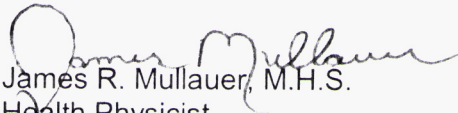

Please note that in accordance current licensing policy, there is now a possession limit for material listed in 10 CFR 31.11. Your consulting physicist, Erin Bell, agreed to the possession limit now listed in your NRC license.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room

or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
