Request for Additional Information Set 28
Fire Protection – Clarification on responses

Based on the staff's review of PG&E's response dated July 28, 2010, please provide responses to the following:

RAI 2.3.3.12-4 (follow-up)

By letter dated July 28, 2010, the applicant responded to request for additional information (RAI) 2.3.3.12-4 and clarified a discrepancy between license renewal boundary drawing LR-DCPP-18-106718-12 and Final Safety Analysis Report Section 9.5.1.2.6.1, regarding areas and locations of low pressure CO_2 fire hose reel coverage. However, the RAI response did not provide the CO_2 fire hose reel location for "25kV Potential Transformer Area," listed in RAI 2.3.3.12-4. The staff requests that the applicant identify the location of the CO_2 fire hose reel for the "25kV Potential Transformer Area."
