October 5, 2010

U.S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, DC 20555-0001

LaSalle County Station, Units 1 and 2
Facility Operating License Nos. NPF-11 and NPF-18
NRC Docket Nos. 50-373 and 50-374

Subject: Additional Information Regarding Request for License Amendment Regarding Revised Pressure/Temperature Curves

- References:**
1. Letter from P. R. Simpson (Exelon Generation Company, LLC) to U.S. NRC, "License Amendment Request Regarding Reactor Coolant System Pressure and Temperature Limit Curves," dated April 19, 2010
 2. Letter from C. Gratton (U.S. NRC) to M. J. Pacilio (Exelon Nuclear), "LaSalle County Station, Units 1 and 2 – Request for Additional Information Related to Exelon Generation Company's Request to Incorporate Revised Pressure/Temperature Curves (TAC Nos. ME3801 and ME3802)," dated August 20, 2010

In Reference 1, Exelon Generation Company, LLC (EGC) requested an amendment to Facility Operating License Nos. NPF-11 and NPF-18 for LaSalle County Station (LSCS), Units 1 and 2, respectively. The proposed change revises Technical Specifications (TS) to incorporate revised Pressure and Temperature (P-T) curves that are valid for up to 32 effective full power years of operation. In Reference 2, the NRC requested additional information to support review of the proposed change and requested a 30-day response.

On October 4, 2010, during a phone conversation between Ken Nicely (EGC) and Eva Brown (U.S. NRC), EGC requested to extend the response submittal date to October 15, 2010. The NRC agreed to the extension.

There are no regulatory commitments contained in this letter. If you have any questions concerning this letter, please contact Ms. Jean Smith at (630) 657-2813.

Respectfully,

A handwritten signature in black ink, appearing to read "Jeffrey L. Hansen". The signature is fluid and cursive, with a large initial "J" and "H".
