## General Comment

NRC Management Directive MD 8.11 has provided internal guidance for the NRC staff and management for several years. While the guidance remains valid, GEH supports the NRC initiative to periodically review and revise (as needed) its internal procedures. Thus, even if no revisions are made, it may be appropriate to re-issue the guidance, indicating that it was review and has been re-verified as of the date of re-issuance. This ensures that the efforts to review and re-affirm the guidance remains valid is obvious to the users and to the public.
