Mr. Jerald G. Head  
Senior Vice President, Regulatory Affairs  
GE Hitachi Nuclear Energy  
3901 Castle Hayne Road MC A-18  
Wilmington, NC 28401

SUBJECT: FINAL SAFETY EVALUATION FOR GE HITACHI NUCLEAR ENERGY  
ADDENDUM TO THE SAFETY EVALUATION FOR LICENSING TOPICAL  
REPORT NEDE-33083P, SUPPLEMENT 2, REVISION 2, "TRACG  
APPLICATION FOR ESBWR ANTICIPATED TRANSIENT WITHOUT SCRAM  
ANALYSES"

Dear Mr. Head:

On August 24, 2005, GE Hitachi (GEH) Nuclear Energy submitted the Economic Simplified Boiling Water Reactor (ESBWR) design certification application to the staff of the U.S. Nuclear Regulatory Commission. Subsequently, in support of the design certification, GEH submitted license topical report (LTR) NEDE-33083P, Supplement 2, Revision 2, "TRACG Application for ESBWR Anticipated Transient Without Scram Analyses." The staff has now completed its review of NEDE-33083P.

The staff finds NEDE-33083P, Supplement 2, Revision 2, "TRACG Application for ESBWR Anticipated Transient Without Scram Analyses," acceptable for referencing for the ESBWR design certification to the extent specified and under the limitations delineated in the LTR and in the associated safety evaluation (SE). The SE, which is enclosed, defines the basis for acceptance of the LTR.

The staff requests that GEH publish the revised proprietary and non-proprietary versions of the LTR listed above within 1 month of receipt of this letter. The accepted version of the topical report shall incorporate this letter and the enclosed SE and add an "-A" (designated accepted) following the report identification number.

If NRC's criteria or regulations change, so that its conclusion that the LTR is acceptable is invalidated, GEH and/or the applicant referencing the LTR will be expected to revise and resubmit its respective documentation, or submit justification for continued applicability of the LTR without revision of the respective documentation.

Document transmitted herewith contains sensitive unclassified information. When separated from the enclosures, this document is "DECONTROLLED."

J. Head

- 2 -

Pursuant to 10 CFR 2.390, we have determined that the enclosed SE contains proprietary information. We will delay placing the non-proprietary version of this document in the public document room for a period of 10 working days from the date of this letter to provide you with the opportunity to comment on the proprietary aspects only. If you believe that any additional information in Enclosure 1 is proprietary, please identify such information line by line and define the basis pursuant to the criteria of 10 CFR 2.390.

The Advisory Committee on Reactor Safeguards (ACRS) subcommittee, having reviewed the subject LTR and supporting documentation, agreed with the staff's recommendation for approval following the August 16, 2010, ACRS subcommittee meeting.

Sincerely,

***/RA Frank Akstulewicz for:/***

David B. Matthews, Director  
Division of New Reactor Licensing  
Office of New Reactors

Docket No. 52-010

Enclosure:

1. Safety Evaluation (Non-Proprietary)
2. Safety Evaluation (Proprietary): Applicant only
