

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

October 7, 2010

Mr. John Carlin, Vice President
R. E. Ginna Nuclear Power Plant, LLC
1503 Lake Road
Ontario, NY 14519

SUBJECT: RESPONSE TO ORDER FOR IMPLEMENTATION OF ADDITIONAL SECURITY MEASURES AND FINGERPRINTING FOR UNESCORTED ACCESS FOR CERTAIN SPENT FUEL STORAGE LICENSEES – R.E. GINNA NUCLEAR POWER PLANT INDEPENDENT SPENT FUEL STORAGE INSTALLATION

Dear Mr. Carlin:

On June 3, 2009, the U.S. Nuclear Regulatory Commission (NRC) issued an Order (EA-09-119) that modified the current license for the Ginna Nuclear Power Plant independent spent fuel storage installation (ISFSI). The Order required compliance with additional security measures (ASMs) for physical protection and access authorization and fingerprinting at ISFSIs. On June 19, 2009, R.E. Ginna Nuclear Power Plant, LLC (Ginna LLC) submitted its responses to the Order.

In the June 19, 2009, response, Ginna LLC stated that it intended to fully comply with the ASM requirements for physical protection and access authorization and fingerprinting at the Brunswick Steam Electric Plant ISFSI. Ginna LLC's December 3, 2009, submittal provided confirmation that implementation of both ASMs (Attachments 1 and 2 to the Order) had been completed and that Ginna LLC is in full compliance with the Order.

Based on our review, the NRC staff finds that your responses to the Order are acceptable. The NRC has determined that you have effectively implemented the ASMs through on-site inspection (IR 05000244/20100404). If you have any questions about this letter, please call me at 301-492-3316.

Sincerely,

A handwritten signature in cursive script that reads "L. Raynard Wharton".
