- References:
1. Letter from Ronald B. Clary (SCE&G) to Document Control Desk (NRC), August 25, 2010 Submittal of the VCSNS COL Application, dated August 25, 2010.
 2. Vogtle (SNC) Response to Nuclear Regulatory Commission (NRC), Voluntary Revision to Final Safety Analysis Report Chapter 6, dated August 13, 2010 (ND-10-1566).

SCE&G considers the standard information provided in Reference 2 to be applicable to the VCSNS Units 2 and 3 COLA with the exception that the words "safety-related" will be removed from the FSAR mark-up. This has been identified as standard plant errata and is expected to be submitted to the NRC in accordance with the errata process for the AP1000 design centered working group (DCWG). The COLA changes identified in this response will be incorporated in a future COLA update.
