General Comment

How does Uranium One manage to obtain a permit for such a toxic element? There has not been a successful reclaiming of other uranium mines. And are we actually prepared to mine in Wyoming when consequences are so devastating to the local residents. I view it as a crime to cause people harm and deprive them their health for the goals of another/ Uranium One. The laws are outdated concerning this matters of regulations. And people should do the right thing because it is the right thing yo do. Please think again. Debra Mcgowan
