

The map illustrates the ISFSI Facility and its immediate surroundings. Key features include:

- ISFSI Facility:** The central industrial complex, featuring a Reactor Plant, Storage Basin, and various piping systems (27" and 10" pipelines).
- Enlarged View:** A detailed inset in the top right corner showing the facility's layout, including the Security Building, Security Fence, Evaporation Pond, and various piping systems (27" and 10" pipelines).
- Geographical Features:** The South Platte River flows through the area, with several ditches (e.g., Jay Thomas Ditch, Beman Ditch, Backer Ditch) and a drainage basin. County Road 18 and County Road 21 are also shown.
- Infrastructure:** The map includes a scale bar (0 to 1 mile) and a north arrow. It also shows the location of the facility relative to the U.S. 90 highway and the town of Plattville.

APPENDIX E – ENVIRONMENTAL REPORT SUPPLEMENT
