SUMMARY

I contacted Regis to discuss final deficiencies related to ARC's renewal application. These issues are in addition to the deficiencies discussed during an 8/24 and 8/25 telephone conversation, and those deficiencies identified in our 5/27/10 deficiency letter.

The deficiencies discussed below are from a review of items 5 through 11 of the licensee's application for renewal dated April 30, 2009. NOTE that the RPP and SOP's were already reviewed and deficiencies were communicated to the licensee via the May 27 letter, and during the 8/24 and 8/25 telephone calls.

In general, as a result of significant changes made to the RPP and SOP's as a result of the May 27 letter and the 8/24 and 8/25 telephone calls, the licensee needs to modify items 5 through 11 of the application as follows:

- OK • Item 7 needs to be updated with regard to the deputy RSO. Zhang Ning is no longer employed by ARC.
- OK • Update and modify, as needed, the membership of the RSC.
- OK • Update the list of authorized users. Modify this section to include a statement that the NRC approves all authorized users via license amendment.
- OK • Revise item 8 to include an update with regard to the frequency of refresher training.
- 7 - • Revise Item 8 with regard to on-the-job training to be consistent with requirements stated in the RPP and SOP's.
- OK • Revise statements made in Item 10 with regard to assessment of public dose. It is out understanding that ARC does not use the COMPLY code. Also include a statement that procedures for assessing the impact of ARC effluents on public dose is under review, and ARC will be submitting a new evaluation of the impact its effluents has on public exposure.

ACTION REQUIRED

FAX response **no later than September 3** to 630-515-1078 and e-mail to kevin.null@nrc.gov
