I wish I had more detail on these two questions being asked of you. Please do your best to answer them.

Thank you.

**Subject:** additonal questions

Dennis,

After speaking with you, I contacted Mr. Pugh, but he believed that Mr. Portman would be more knowledgable about the inspection program. So, I spoke with Mr. Portman this morning, and he was very knowledgeable and helpful in providing an overview of the inspection program, procedures, and reports.

\*\*I would still be interested in trying to speak with one or two of the inspectors. Mr. Portman mentioned that he believed that Mr. Komara and Mr. Lablanc were no longer on-site, but believed that Mr. Jason Sonnier would be on-site and was now working for WGI. Contact information for Bernie Komara was provided to Bob Carrion. Bernie still works here.

I would also like to review NDEP-A. Copy of document provided to Bob Carrion.

However, I still have a couple of questions for Mr. Lese.

1. What is basis or criteria used for certification of qualifications for the IWL inspectors performing the concrete inspections?
2. The work package and inspection reports I reviewed do not appear to have acceptance criteria as specified in NAP-02. Where is this information located? In discussions with staff, there may be something called a guidance letter for recording criteria.

Thank you,

Anthony D. Masters, PE
