ACTION REQUIRED

To All,

I have set up the following location for capture of all electronic files being provided to the NRC SIT: L:/Shared/2009 NRC SPECIAL INSPECTION TEAM Q-A/DYKSTERHOUSE Q-A, FAGAN Q-A and WILLIAMS Q-A. Electronic files should be placed under the appropriate Primary Responder (Fagan, Dyksterhouse or Williams) using the Access database request/question numbering regime. At the end of the inspection, this folder will be downloaded for the NRC's use.

Each NRC Inspector has their own USERID and Password for both the PGN standard desktop and Passport.

NOTE: Be very careful not to place proprietary or confidential information in these file folders.
