**SUBJECT: SEABROOK STATION, UNIT NO. 1 – CORRECTION LETTER RE: RELIEF
REQUEST FOR SYSTEM PRESSURE TEST EXAMINATIONS ON CLASS 1
COMPONENT PRESSURE BOUNDARIES (TAC NO. ME2418)**

Dear Mr. Freeman:

By letter dated October 15, 2010 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML102350341), the Nuclear Regulatory Commission staff authorized an alternative to the requirements of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code, Section XI for Seabrook Station, Unit No. 1 (Seabrook). The purpose of this letter is to correct the cover letter transmitting this authorization. Specifically, the cover letter incorrectly indicated that this action applied to the third 10-year interval for Seabrook, while the enclosed SE correctly indicates its applicability to the second 10-year interval.

If you have any additional questions regarding this matter, I may be reached via telephone at (301) 415-2481.

Sincerely,

A handwritten signature in black ink, appearing to read "G. Edward Miller", is written over a faint, larger signature that appears to read "EDWARD MILLER".
