Re: Route Approval Request
 Vogtle to Savannah, GA (Alternate)

Dear Ms. Giantelli,

Secured Transportation Services (STS) (NRC Docket 070-07011) has been contracted by Transport Logistics International (TLI) to obtain NRC Route Approval for a truck shipment from the Vogtle Electric Generation Plant (VEGP), near Waynesboro, GA to the Port of Savannah, Savannah, GA.

Per 10CFR73.37(b)(7), STS hereby request route approval from VEGP to the Port. The details of the route are contained in a separate attachment, marked as "Safeguards Information".

The shipment is tentatively scheduled for late Fall 2010. NRC charges for this route review should be billed to STS.

The entire route was physically surveyed by STS personnel February 8-9, 2010. We have confirmed each of the points of contact contained in the attachments, maintaining records of the contacts which are available for your review.

This is the 2nd of two routes submitted. This is the "Alternate" Route at the request of Captain Bruce Bugg, Georgia's Governors Designee. The Primary Route was submitted separately.

If you have any questions, or need additional information, please contact Blake Williams or me at the number above.

Sincerely,

Roy A. Boyd

Enclosure: SGI Package, as Stated
