Dear Mr. Schmitt:

This refers to: (1) your letter dated July 29, 2010, for an amendment to your byproduct materials license no. 21-32444-01MD and (2) our telephone conversations on October 1, 2010, with your consultant, Ray Carlson, and on October 4, 2010, with "Barbara" in your office. During the telephone conversation on October 1, 2010, Mr. Carlson indicated that you were not ready to respond to the questions discussed. Mr. Carlson stated that he was leaving the country for several weeks and was handing this matter off to one of his associates.

The primary issues I had concerning the requests made in your letter dated July 29, 2010, were that Thomas R. Snider, R.Ph. was not listed as an Authorized Nuclear Pharmacist on the referenced license provided and that the request to add a new location of use was incompletely prepared and supported. As no other information supporting Mr. Snider's request to become an ANP was provided, I am unable to continue my review of this matter.

In the telephone contact between me and Mr. Carlson, I noted that the guidance in NUREG 1556, Vol. 13, Rev. 1 should always be used in the preparation of licensing requests concerning nuclear pharmacies and, in this instance, it appeared that the guidance was minimally used. Please do not submit blueprints or copies of blueprints; simple hand-drawn diagrams, or the equivalent, that clearly show the information described in the guidance are preferred. Either "draw to scale" or indicate the dimensions on the diagrams.

Please also note that your license number ends with the letters "MD" capitalized. Your letter dated July 29, 2010, did not include the "MD" designation as part of your license number.

As I discussed during the telephone conversation with Barbara on October 4, 2010, (because you were not available at that time) we have voided your request for this amendment, which means that we have removed it from our active database of pending licensing actions until such time as we receive an appropriate written response.

This action is taken without prejudice to resubmission. If you resubmit your request, in order to facilitate proper handling in our office, please state that the resubmission is "additional information to Control Number 573268" and address it to my attention. We will then resume our review.

D. Schmitt

If you have any questions or require clarification on any of the information stated above, you may contact me at (630) 829-9841 or you may reach our administrative support staff at (630) 829-9887.

Sincerely,

A handwritten signature in cursive script that reads "Colleen Carol Casey".
