To: Nancy Godby, Chief Operating Officer [copy to Jim Norweck, RSO]

This is regarding your amendment request dated September 8, 2010. The following additional information is needed to allow us to continue our review of your request to add Kozhaya Mallah, M.D. as authorized user for 35.200.

1) At the bottom of page 2 of the submitted Form 313A(AUD), the field for "total hours of experience" was not completed. It is necessary to document that Dr. Mallah completed the requirement of 10 CFR 35.290(c)(1) for 700 hours of training and experience, including a minimum of 80 hours of classroom and laboratory training. Please ask Dr. Shamoon to provide the number of hours of supervised work experience in radionuclide handling techniques that Dr. Mallah received at St. Michaels and St. Joseph's Medical Center in Newark, NJ between July 1, 2007 and June 30, 2010.

2) Two training certificates were provided, one showing 100 hours of classroom and laboratory training in radioisotope handling techniques provided between February 13-21, 2010, and one showing HAZMAT training on February 21, 2010. Please provide a detailed curriculum demonstrating how the stated number of hours of training in radioisotope handling techniques was provided in a nine-day time period, and confirming inclusion of each of the following topics required by 10 CFR 35.290(c)(1)(i): Radiation physics and instrumentation, Radiation protection, Mathematics pertaining to the use and measurement of radioactivity, Chemistry of byproduct material for medical use, and Radiation biology.

Please note that you may not reply to this letter by return e-mail. You may reply to my attention by mail to the Region I office or by fax to 610-337-5269, referencing mail control 573506. If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your application.

Thank you for your cooperation. Please feel free to contact me by telephone or e-mail if you have any questions.
