The pictures we took are on the camera drive - the camera is on my desk. The disk reader is on top of the camera. Amar can help you if necessary.

I used ACDSee to add text to create a meaningful record. Unfortunately, I thought the 12 line was on top. In every picture, 12 should be 14 and 14 should be 12. I don't know how to fix it short of redoing the work. I can do that if it becomes necessary.
