It is still my plan to defer the annual backup site visit until this November/December when I plan to be there for the fire triennial inspection.

See attached

Reminder - Dave Lew plans to visit Salem on 4/15/10 during the outage. I am sure he will want a containment tour and to see the AFW piping work, so please plan accordingly.

Additionally, if Tim O'hare could attend our 7:30 am meeting it would be helpful for AFW communication.
