Subject: Documents Requested

Howard,

Didn't get a chance to see before we both had to leave today. As you get the documents on your list tomorrow, please email them to myself and to Dan for continuity.

We did not receive the updated Unit 2 Operability Eval. today. I guess Allen ran into other difficulties. We are interested in this.

Also, I don't have your list with me at home but, please don't forget we still need the corrective actions from the 2004 or 2005 NOV for followup.

I did review the MRP-139 info with Tim Giles this afternoon. I also have an appointment with Wally Wikoff on Friday AM to discuss the 2 Notifications on the containment conditions.

We can review the total list on Friday AM

Thanks. If we don't talk before, I'll see you on Friday AM.

Tim OHara
