

UNITED STATES NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

November 23, 2010

Mr. Edgar L. French Delaware Nation P.O. Box 825 Anadarko, OK 73005

SUBJECT:

REQUEST FOR SCOPING COMMENTS CONCERNING THE DAVIS-BESSE

NUCLEAR POWER PLANT, UNIT NO. 1, LICENSE RENEWAL APPLICATION

REVIEW

Dear Mr. French:

The U.S. Nuclear Regulatory Commission (NRC) is considering an application submitted by FirstEnergy Nuclear Operating Company (FENOC), for the renewal of the Davis-Besse Nuclear Power Station, Unit No. 1 (DBNPS) operating license. DBNPS is located 25 miles east of Toledo, Ohio. The application for renewal was submitted by FENOC, in a letter dated August 27, 2010, pursuant to Title 10 of the *Code of Federal Regulations* Part 54 (10 CFR Part 54). As part of the NRC's review, a site-specific supplemental environmental impact statement (SEIS) to its Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, will be prepared under 10 CFR Part 51, the NRC's regulation that implements the National Environment Policy Act of 1969, as amended. The SEIS will include an analysis of environmental issues, and in accordance with 36 CFR 800.8©, will include analyses of potential impacts to historic and cultural resources.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years, and the license may be renewed for up to 20 years. The current operating license for DBNPS will expire in April 2017. FENOC has no plans to change current operations during the license renewal period. DBNPS would use existing plant facilities and transmission lines and would not construct or disturb undeveloped portions of the site. According to FENOC, any maintenance activities would be limited to previously disturbed areas of the plant site. Please see the enclosed maps and pictures, which show the area under review.

The Davis Besse Nuclear Power Station license renewal application is available at: http://www.nrc.gov/reactors/operating/licensing/renewal/applications/davis-besse.html.

In addition, the Ida Rupp Public Library, 310 Madison Street, Port Clinton, Ohio 43452 and the Toledo-Lucas County Public Library, 325 North Michigan Street, Toledo, Ohio 43604, has agreed to make the application available for public inspection. Public comments and supporting materials related to this notice can be found at the Federal rulemaking website, http://www.regulations.gov, by searching on Docket ID NRC-2010-0298.

The GEIS, which assesses the scope and impact of environmental effects that would be associated with renewal of any nuclear power plant site, can be found on the NRC's website at http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437/.

The NRC expects to publish the draft SEIS in August 2011. A copy of the document will be sent to you for your review and comment. After consideration of public comments received, the NRC will prepare a final SEIS, which is scheduled to be issued in April 2012. If you have any questions concerning the NRC's review of this license renewal application, please contact Ms. Paula Cooper, Project Manager, at 301-415-2323 or by e-mail at paula.cooper@nrc.gov.

NUCLEAR POWER PLANT, UNIT NO. 1, LICENSE RENEWAL APPLICATION

REVIEW

Dear Mr. Todd:

The U.S. Nuclear Regulatory Commission (NRC) is considering an application submitted by FirstEnergy Nuclear Operating Company (FENOC), for the renewal of the Davis-Besse Nuclear Power Station, Unit No. 1 (DBNPS) operating license. DBNPS is located 25 miles east of Toledo, Ohio. The application for renewal was submitted by FENOC, in a letter dated August 27, 2010, pursuant to Title 10 of the *Code of Federal Regulations* Part 54 (10 CFR Part 54). As part of the NRC's review, a site-specific supplemental environmental impact statement (SEIS) to its Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, will be prepared under 10 CFR Part 51, the NRC's regulation that implements the National Environment Policy Act of 1969, as amended. The SEIS will include an analysis of environmental issues, and in accordance with 36 CFR 800.8(c), will include analyses of potential impacts to historic and cultural resources.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years, and the license may be renewed for up to 20 years. The current operating license for DBNPS will expire in April 2017. FENOC has no plans to change current operations during the license renewal period. DBNPS would use existing plant facilities and transmission lines and would not construct or disturb undeveloped portions of the site. According to FENOC, any maintenance activities would be limited to previously disturbed areas of the plant site. Please see the enclosed maps and pictures, which show the area under review.

Chief, Rules, Announcements, and Directives Branch Division of Administrative Services Office of Administration Mailstop TWB-05-B01M U.S. Nuclear Regulatory Commission Washington, DC 20555

Electronic comments may be submitted to the NRC by e-mail at Paula.Cooper@nrc.gov.

The Davis Besse Nuclear Power Station license renewal application is available at: http://www.nrc.gov/reactors/operating/licensing/renewal/applications/seabrook.html.

In addition, the Ida Rupp Public Library, 310 Madison Street, Port Clinton, Ohio 43452 and the Toledo-Lucas County Public Library, 325 North Michigan Street, Toledo, Ohio 43604, has agreed to make the application available for public inspection. Public comments and supporting materials related to this notice can be found at the Federal rulemaking website, http://www.regulations.gov, by searching on Docket ID NRC-2010-0298.

The GEIS, which assesses the scope and impact of environmental effects that would be associated with renewal of any nuclear power plant site, can be found on the NRC's website at http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437/.

The NRC expects to publish the draft SEIS in August 2011. A copy of the document will be sent to you for your review and comment. After consideration of public comments received, the NRC will prepare a final SEIS, which is scheduled to be issued in April 2012. If you have any questions concerning the NRC's review of this license renewal application, please contact Ms. Paula Cooper, Project Manager, at 301-415-2323 or by e-mail at paula.cooper@nrc.gov.

Sincerely,
//RA/
David J Wrona, Chief
Projects Branch 2
Division of License Renewal
Office of Nuclear Reactor Regulation

Subject: FW: New Document with 665 request and DLR Tracking Number: DLR-10-0675 with PRIORITY: 2,

assigned to: LYee

Good Afternoon,

Please review ML103000164, Request for Comments Concerning the Davis-Besse Nuclear Power Station, Units 1, License Renewal Application Review.

Please note this is a tribal letter. Please review the first letter and if there are any changes, please let me know or incorporate throughout.

Please reply to this e-mail (to DLR Administrative Assistant) when you have concurred.

Concurrence due by November 8, 2010.

Thanks,

Linda Linda Yee 301.415.0791
