Subject: FW: Environmental Assessment for Watts Bar 2 fresh fuel storage license - "no comment" from Tennessee

Rafael,
This looks like a "no comments" from Tennessee.

Subject: Re: Environmental Assessment for Watts Bar 2 fresh fuel storage license?

I routed the EA for review and comment some ago, but have not received any questions or comments. I just checked with Debra Shults (our Director) to be sure that none would be forthcoming. She agreed that we do not have any questions or comments to forward to you relative to the EA. Thank you for the opportunity to review and comment.

Hi Rubin,

I understand you are reviewing my draft Environmental assessment for a new license for TVA to receive and store fresh reactor fuel at Watts Bar 2. Do you think you will have comments or questions on the EA? We're getting close to our schedule milestone.

Please call or email if you have any questions or comments.

Thanks,
Mary
