SUBJECT: SUMMARY OF THE OCTOBER 6, 2010, CATEGORY 2 PUBLIC MEETING WITH STAKEHOLDERS TO DISCUSS THE SAFETY/RISK ASSESSMENT RESULTS FOR GENERIC ISSUE 199, "IMPLICATIONS OF UPDATED PROBABILISTIC SEISMIC HAZARD ESTIMATES IN CENTRAL AND EASTERN UNITED STATES ON EXISTING PLANTS"

On October 6, 2010, the U.S. Nuclear Regulatory Commission (NRC) held a Category 2 public meeting with stakeholders. This memorandum provides a summary of the meeting. The purpose of the meeting was to discuss the technical approach used and the results of the GI-199 Safety/Risk Assessment, and NRC plans to address GI-199.

The presentations including introductory remarks by NRC followed by an overview presentation of the Generic Issues Program and GI-199; a technical presentation providing seismic background information, the approach used to perform the GI-199 Safety/Risk Assessment, results and interpretation of the results, and a discussion of the information needed to perform site-specific value impact (regulatory) analysis; and a discussion of agency's planned path forward. The presentations were followed by an opportunity for industry remarks and public questions and answers.

There were thirty-two attendees at the meeting, seventeen from the NRC, six from utilities, two from the Nuclear Energy Institute (NEI), six from vendors or consultants, and one public (media) stakeholder. Enclosed are a list of meeting attendees, references, a summary of the meeting discussions, and action items. A telephone bridge was used and the meeting was webcast. The webcast is archived at <http://video.nrc.gov/Player.aspx?Event=515>.
